African Union and Friends of Africa in Diaspora
(www.aufadtryst.org)

The African Union and Friends of Africa in Diaspora is a charity organization (NGO) with the objective of helping empower the poor people of Subsahara Africa, empower themselves in form of health, education and skill acquisition.

In order to achieve this noble aim, we have succeeded in negotiating a 6x3,2 km landed property in Ovia – east, Benin City, Edo State, Nigeria.

We are happy to inform you, that the larger part of the money has been paid.

The farm in question will be able to sustain and train a minimum of hundred people yearly. They will then be given the materials and assistance to stand on their own.

This Farm will provide the food.

The farm will pay the workers.

The workers can pay the school fees.

The workers can pay their medicine.

The next generation will be better than the ones before them.

Please, support us in supporting and empowering the needy ones.
